

K-Love radio station serves our local community in awesome ways. If K-Love were to be displaced by an LPFM I am concerned that the public would suffer. The service provided by K-Love is guidance to the lost, hope for the hopeless and strength to the weak. It is the lifeline to some and a daily necessity to me. Thank you for NOT allowing LPFM stations to take priority over current FM translator services. Many people desperately need to listen to K-Love which they can only hear on these FM translators. My local station is 106.7.

Thank you!  
Anne B Fuller
